

IN THE CLAIMS

Please amend the claims as follows:

1-4. (Canceled)

5. (Currently Amended) A computer-readable ~~medium~~ material to be affixed to a package of fluid component packaged goods, said computer-readable ~~medium~~ material ~~including~~ expressing manufacturing/handling instructing data code, wherein said data code ~~for directing~~ directs a computer to perform the steps of:

instructing the manufacturing of the fluid component with predetermined composition according to its type or classification in the fluid component packaged goods; and

instructing the handling of the fluid component packaged goods differently according to its type or classification,

wherein the data code ~~contains~~ expresses data for instructing manufacturing and handling operations to be automated to be able to directly instruct processing and handling operations in a processing or handling section.

6. (Previously Presented) Fluid component packaged goods, wherein said manufacturing /handling instructing data code in Claim 5 is affixed on packaging containers thereof.

7. (Currently Amended) A computer-readable ~~medium~~ material to be affixed to a paint can goods in which paint is filled, said computer-readable ~~medium~~ material ~~including~~ expressing manufacturing/handling instructing data code, wherein said data code ~~for directing~~ directs a computer to perform the steps of:

instructing the manufacturing of the paint filled with predetermined composition according to its type or classification in the paint can goods; and

instructing the handling of the paint can goods in which the paints are filled
differently according to its type or classification,

wherein the data code ~~contains~~ expresses data for instructing manufacturing and
handling operations to be automated to be able to directly instruct processing and handling
operations in a processing or handling section.

8. (Previously Presented) Paint goods contained in cans, wherein said
manufacturing/handling instructing data code in Claim 7 is affixed to the paint can.

9. (Canceled)

10. (Currently Amended) A computer-readable ~~medium~~ material to be affixed to a
package of fluid component packaged goods, said computer-readable ~~medium~~ material
~~including~~ expressing manufacturing/handling instructing data code, wherein said data code
~~for directing~~ directs a computer to perform the step of:

instructing manufacturing and handling operations to be automated to be able to
directly instruct processing and handling operations in a processing or handling section,

wherein the manufacturing instruction is adapted to be utilized to manufacture the
fluid component with predetermined composition according to its type or classification in the
fluid component packaged goods and the handling instruction is adapted to be utilized in
handling the fluid component packaged goods differently according to its type or
classification.

11. (Previously Presented) Fluid component packaged goods, wherein said
manufacturing /handling instructing data code in Claim 10 is affixed on packaging containers
thereof.

12. (Currently Amended) A computer-readable ~~medium~~ material to be affixed to a paint can goods in which paint is filled, said computer-readable ~~medium~~ material ~~including~~ expressing manufacturing/handling instructing data code, wherein said data code ~~for directing~~ directs a computer to perform the step of:

instructing manufacturing and handling operations to be automated to be able to directly instruct processing and handling operations in a processing or handling section,

wherein the manufacturing instruction is adapted to be utilized to manufacture the paint filled with predetermined composition according to its type or classification in the paint can goods and the handling instruction is adapted to be utilized in handling paint can goods differently according to its type or classification in which the paints are filled.

13. (Previously Presented) Paint goods contained in cans, wherein said manufacturing/handling instructing data code in Claim 12 is affixed to the paint can.
